SUMMARY

Frontend developer experienced in React, Angular, TypeScript, Tailwind CSS. Transitioned from marketing and operations to tech with hands-on project ownership and UI focused delivery. Passionate about building performant, user centered apps in agile environment.

WORK EXPERIENCE

Accendo Technologies

Software Developer | Frontend   Apr 2024 – Present

- Led the frontend development for company's new project to develop success profile creation tool using Angular, developing reusable components, managing state with services, and integrating APIs to streamline competency-based role configuration.
- Built responsive UI with dynamic form logic, conditional rendering, and modular layouts that reduced HR profile creation time and improved workflow clarity.
- Developed and optimized performance-critical frontend features using Next.js, TypeScript, Tailwind CSS, and MobX, reducing load times and enhancing rendering efficiency.
- Integrated multiple APIs for seamless data flow and dynamic content updates, improving user engagement and reducing page level refresh needs.
- Translated Figma designs into responsive UI and collaborated with designers and product stakeholders to refine usability.
- Contributing to a 20% improvement in on-time delivery of new feature rollouts in an agile environment.
- Reduced bugs with proactive testing and debugging practices.

Kibing Group Malaysia

Process Coordinator | Personal Assistant   Jun 2022 – Apr 2024

- Streamlined operations by coordinating documentation and standardizing workflows.
- Supported departmental reporting and communication for senior management.

Daikin Malaysia Sales & Service

Service Provider Support Executive   May 2021 – Jun 2022

- Onboarded 20+ service providers expanding national service coverage.
- Managed inquiries and ensured accurate support operations.

Matrix Concepts

Sales & Marketing Executive   Nov 2018 – Jul 2020

- Achieved 80% sales in property campaigns through targeted marketing.
- Organized property exhibitions and supported strategic sales reporting.

PROJECTS

Country Explorer

React | REST Countries API

- Fetched and display data with search and filters using React hooks, optimized rendering with memoization.

Image Carousel

React | Framer Motion

- Built accessible, animated image carousel using Framer Motion for UI and animation learning.

Skills

React, Angular, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, MobX, Figma, Git
